

Community Yard Sale didn't go off as planned this year. Unfortunately the rain took over and we cancelled the original date. The Yard Sale was rescheduled for June 15th - we had 7 families that joined us as the field. We had a good time. Hopefully next year we will have better weather.

SIGNS, SIGNS, EVERY WHERE A SIGN!

Friendly reminder for those of you who put up signs around the neighborhood. Please remember to take the signs back down.

MARINA

Please call Kevin and Terry Finney at 410-643-6322 for any of these reasons:

If you need boat stickers. The cost is \$35.00 exact cash or check. You will need the boat registration and proof of yearly dues payment.

If your interested in test driving a boat that you may purchase - you will have to use public ramps not the Marina. The Marina is for Cloverfields residents use only.

If you are having a party at beach and someone comes in by boat - they will need to anchor outside the beach. Please do not have them dock in the Marina area. We would hate to see your friends boat towed for illegal parking.

You won't be allowed into the Marina/Beach area without the following: Boats: 2 sticker system - one on boat left side and 2nd on the trailer tong - left side. Cars - left side bottom or top of window. If you do not have the appropriate stickers on the vehicles you will not be allowed to enter in the Marina/Beach area. You car/truck could be towed if the sticker is not on your vehicle. The owner will pay for the towing charges.

PROTECT YOUR VISION: GLAUCOMA AWARENESS

Glaucoma is the number-one cause of blindness in the world and is the leading cause of blindness in African Americans. Research suggests that yearly direct medical costs resulting from the disease number \$2,86 billion each year in the United States. The most common form of the disease is chronic (or open angle) glaucoma, which affects more than 2 million Americans over the age of 40. Other common types of glaucoma include normal tension, acute (angle closure), secondary, and postsurgical glaucoma. Half of those with glaucoma are unaware that they are suffering from the condition.

Glaucoma damges the optic nerve, which is the nerve responsible for relaying information from the eye to the brain. Damage to the optic nerve results in diminished vision-typically reduced peripheral vision. If the condition is not treated, central vision may also be damaged. If a patient loses vision, treatment will not restore it.

Because treatment is less effective once symptoms are experienced and because glaucoma robs sufferers of vision slowly, with patients often unaware, it is important to understand the risk factors. Some of the risk factors for glaucoma include being of advanced age, having a family history of the disease, being nearsigted, suffering an injury to the eye, undergoing eye surgery, having diabetes, and long-term use of medications that include steroids. In addition, race is a risk factor: the National Eye Institute warms that Africian Americans are five times more likely to suffer from glaucoma than Caucasians and are four times more likely to lose vision as a result of the disease. In addition, Hispanics are more likely than those in other groups to develop the disease after the age of 60.

Glaucoma can be detected during a routine eye exam. If you are 55 or older, you should get an eye exam a minimum of once every 2 years. If you have diabetes or other health problems, you may require more frequent eye exams. A dilated eye exam allows an eye doctor to check for glaucoma and other diseases of the eye. The process is painless and may not always be part of an exam for a new pair of eyeglasses or contact lenses. During a dilated eye exam, the eye doctgor uses eye drops to widen the eyes pupil, allowing the doctor to take a closer look at the inside of the eye, including the optic nerve at the back of the eye.

Previent Blindness America provides free educational resources on glaucoma, including an adult vision risk assessment and details about treatment options. Visit The Glaucoma Learning Center at 222.preventblindness.org/glaucoma or call (800) 331-2020. You can also request free printed materials, including the "Guide for People with Glaucoma," a detailed handbook for patients that includes information on what to expect during treatment and a list of questions to ask the eye doctor. The Glaucoma Learning Center also hosts an online forum where patients and caregivers can discuss any topic related to the disease.

CRIME WATCH

As part of the continuing program to enhance our community and quality of life in Cloverfields, we are looking to get more community members interested in joining our Neighborhood Crime Watch Program. The Crime Watch Program will falls under our Community Security Committee headed by Russ Shaulette and will be coordinated by Kathy Dubel.

The goal of the program is to allow community members to volunteer to participate in patrols throughout the Cloverfields Community to enhance and increase the safe and secure environment we have. Whether four hours a month or even one, any time invested will help continue the high quality of life we enjoy.

Training will be provided by the Queen Annes County Sheriff's Office and Kathy is also planning a number of other initiatives such as Drug Awareness Classes, Crime Prevention and much more. Time and dates will be on the website and in the newsletters. For additional information or to volunteer, please contact Russ <u>410-490-9730</u> or Kathy directly at <u>443-496-1355</u>.
